ABOUT US

Established in 1992, the concept of the business was one that met a critical gap in the UAE construction industry. Providing value for money Engineered Products while offering much needed product related consultancy to Contractors, Consultants and Clients alike. More than a quarter century later, Mediterranean Building Materials is still following through with the same business model. Throughout this time, MBM has been associated with well-established manufacturers across the world to provide sustainable solutions for the ever-growing Middle Eastern construction industry.

We've come a long way from the modest beginnings and we're proud to note that we have become regional leaders in our areas of expertise. We're proud to be associated with major governmental, commercial, healthcare, educational and hospitality developments in the region. Our success was only made possible due to our investment in the most competitive workforce, offering diverse range of products, our relentless commitment to fiscal discipline and working diligently on our vision promised to our clients.

MISSION | VISION

Our vision is to become a leader in providing specialized engineering products for the construction industry. We strive to provide our customers with materials that are of superior quality, well-engineered, cost-efficient and the performance of which meets the industry's international standards.

The use of the best available techniques and resources. Development of our staff to enhance skills and participation. Improvement of both, internal and external communication. The setting of objectives and measuring of performance against targets. Integrity and Honesty in all our business dealings. Building stronger relationships internally with our staff and externally with our clients.

OUR TEAM
