For the attention of Mr Paul Khawaja

Dear Paul

**Telescopic Seating Installation
The British School Al Khubairat, Abu Dhabi**

Following the first term of use of the new telescopic seating system within our Phase IV development we wanted to write to you and let you know how pleased we are with the installation.

The system provides us with the flexibility we need to make full use of the main primary hall and gives us the capacity to comfortably accommodate a high number of parents.

Installation was completed without incident and the team from MBM have responded quickly to any teething issues we have experienced. We would be happy to work with MBM again should we have a future requirement for similar or related products.

Yours sincerely

Jonny Lowe
Operations Manager
